RE: Immunization boosters for Pre-K to Kindergarten

Dear Parents/Guardians:

The following vaccines are required to complete the immunization series for your 4 to 5 year old child getting ready for kindergarten. If your child has not already received them please make an appointment and discuss with your child's doctor the appropriate time for him/her to receive them.

- **5th DTap**
- **4th Polio**
- **2nd MMR**

Please remember to send the updated immunization records to the nurse's office to complete your child's health records at school.

Thank you for your cooperation.

Sincerely,

Joyce Afriyie, RN

School Nurse
