

Dear Parents,

I would like to welcome you and your child to Saint Stanislaus Kostka School. I am very excited to begin this school year with your children. I have created a summer packer to help prepare your child for a smooth transition into our kindergarten program. This is a great opportunity for you and your child to work one on one over the summer on skills I will be reinforcing this year.

You will notice pages for children to practice their letters. It is not only important for students to make their letters the correct way, but also form them correctly. (ie. I tell them to write from the sky to the grass.) I have attached a writing paper to practice on.

Please send this packet in with your child on the first day of school.

I am looking forward to working with you and your child this year to develop their talents to the fullest!

Sincerely,  
Mrs. Mundy
